

CUSTOMER REFERENCE

IND/2011/001

CUSTOMER INFORMATION

GCL-Poly Energy Holdings Limited, Hong Kong

(TECHNICAL) SPECIFICATIONS

Category	Power Controller Systems
Country	Mainland China
Application	Power supply systems for polysilicon manufacturing
Products AEG PS	Thyrobox™ M
Service provided	Equipment delivery and commissioning
Footprint	30% to 70% smaller than competing products
Power factor	0.95%
Energy efficiency	99%
Initialization	February 2011

Precise power control for polysilicon and wafer production

AEG PS delivers power supply systems to China's largest green energy enterprise. GCL Poly is China's largest polysilicon producer and one of the world's leading wafer suppliers. The cooperation between AEG PS and GCL Poly started four years ago, and this new contract proves their confidence in AEG PS as one of their leading technology suppliers. GCL Poly and AEG PS have signed a contract for the delivery of the Thyrobox™ M in order to achieve its goal of expanding its position as one of the world's leading polysilicon and wafer suppliers. GCL Poly delivers high quality and low-cost silicon products to the solar industry.
